

Undergraduate Scholarships

NSERC CREATE TRAINING PROGRAM IN CONTINUOUS FLOW SCIENCE

2017-2018 Competition

CONGRATULATIONS TO OUR LAUREATES!

These scholarships of \$4,000 each allow undergraduate students to do a summer internship and be exposed to cutting-edge research in continuous flow science for a few months.

Frédéric FOURNELLE

- ▶ **Laboratory:** Prof. Masson, Université de Montréal
- ▶ **Project:** Microfluidic Biosensor for HER-2 Detection.

Tarik BUSHAREB

- ▶ **Laboratory:** Prof. Lebel, Université de Montréal
- ▶ **Project:** Synthesis of XCH₂CHN₂ Type Molecules for Esterification and Methylation Reactions.

Oscar Javier GAMBOA MARIN

- ▶ **Laboratory:** Prof. Lebel, Université de Montréal
- ▶ **Project:** Curtius Reaction in Continuous Flow.
