

Dolomite Droplet Microfluidic Workshop-Free

April 28, 2016

This workshop will benefit anyone who is looking to improve their knowledge about latest microfluidic technologies and processes.

The workshop will include talks from independent scientists and Dolomite specialists to help you learn about the benefits of microfluidics for applications such as cell encapsulation, particle and nanoparticle generation, rapid mixing, and integration of sensors. You will also have the opportunity to set up and use a typical microfluidic system, and we will give live demos of droplet production.
